PROFILE

As a seasoned Front-End Engineer with a deep commitment to crafting sophisticated and user-friendly web interfaces, I bring seven years of hands-on experience in front-end development. Throughout my career, I have refined my expertise in HTML, CSS, and JavaScript, enabling me to design seamless and responsive web applications. Additionally, I am proficient in popular front-end frameworks such as React.js and Vue.js, leveraging their capabilities to enhance the interactivity and performance of web-based projects.

WORK EXPERIENCE

- **Le Ventures** 2021 - PRESENT
Front-End Engineer
 - Design and develop high-quality front-end code (Vuejs, React.js).
 - Develop new software applications, features, and distributed services that support high-scale applications.
 - Stay current with the latest front-end technologies and best practices and share your findings with the team.
 - Help evolve our front-end stack and mentor our other developers regarding patterns and best practices.
 - Make suggestions for better solutions to problems.
 - Write structured, tested, readable, and maintainable code.
- **YouCan** 2018 - 2021
